Coming to Pekin from Siberia. I find Japanese propaganda busy implanting a fear of invasion by Bolshevik influences into China. Among the older statesmen, unacquainted with the tremendous new influence abroad, the propaganda is gaining some headway, but the younger Chinese, particularly the students, point out that China is a country of small farmers owning their land, while in the cities there is no modern industrial system, developed where the seeds of Bolshevism find the proper ground to take root. China is the last place where a Bolsheviki social revolution is possible.

Japan, however, has a grave land question and a quickly built industrial system that has failed to recognize certain rights and justice to the laborers, which the rest of the world has granted. In the recent strike in the government arenal at Yawata, Japan, the men demanded a reduction of working hours from twelve to ten.

About 350,000 girls and women work in twelve-hour shifts in the cotton mills. The great tide of unrest is sweeping over them, so today only an unnatural share in unnatural profits with the old idea of loyalty to a master keeps down desperate strikes. Japan has passed the easy money stage. The Chinese boycott and post-war competition with England and America has broken her war monepolies in the Far East. So Japan faces a grave industrial and financial crisis. If hard times come, Japan will stare social revolution in the face.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, March 11.-When Gen. Nollet, head of the French mission, and M. de Marcilly, French Charge d'Affaires in Berlin, received the apology of the German Minister of Foreign Affairs, Herr Mueller, for the Adlon Hotel incident, they called attention says the Daily Mail's Berlin correspondent.

This, the newspaper continues, was a violent and apparently organized attack on three uniformed officers March 4, when a Brit-ish lieutenant-colonel and French and Belgian comrades were visittion with demobilization of the German army. While being esc ed through the camp by a German officer they were hooted and stoned by soldiers, who ignored orders to desist. The Briton and the Belgian were wounded by stones. Their escort took to cover.

The visitors continued to walk toward the officers' quarters, where the commandant advanced to meet them and ordered the yelling soldiers to "fall in." They obeyed, showing, says the cor-respondent, that they were not out of hand and giving the impres-

Taft Denounces Wilson as Responsible for Wreck of World Pact.

DRESIDENT KILLS LEAGUE BY RULE-OR-RUIN POLICY. MR. TAFT SAYS:

Has Alienated Powerful League of Nations' Friends, Lost His Leadership and High Place in History.

BY WILLIAM HOWARD TAFT.

Mr. Wilson is running true to form. His one-track mind mifests itself again.

In the fourteenth point of his message of January 8, 1918, he outlined Article X. He it was who put it into the treaty. He left his mark on the treaty in two particulars; first, in framing Article X, and second, in his opposition to courts and the development by them of international law. He thus much weakened the machinery for the settlement of controversies in the League, and left the provisions in this regard such that all concede the necessity for amending them. It is this feature of the treaty which Mr. Root has been invited by the other nations, and not by Mr. Wilson, to assist in strengthening and reframing.

Article X is unquestionably an Lodge reservations on the subject.

Indeed there is no distinction in substance between these reservamyseriant part of the treaty in its declaratory effect and in its warning to robber nations. One may well regret its being weakened. DELAY PAYMENTS.
Treasury officials said that, in view of the exchange situation and the unsettled economic condition of the European nations during the reconstitution period, it would seem advisable to permit them to postpone interest payments for at least three years. Then, it is believed, they would be in position to meet their obligations.

With the interest on the loans computed at 5 per cent., the total due the United States yearly is about \$470,000,000, an enormous sum for the war-wearied countries to pay at present. If interest is funded into long-term obligations the interest on the payments thus deferred will amount to only \$23.000,000 yearly, which can be paid and the credit of the debtor nations maintained. Treasury officials are working on recommendations to submit to Congress as to the course to be followed if deferred payments are permitted. It has been suggested that the interest on the interest be charged off, but the proposal has met strong jopposition in Congress.

Still there is substantial proof of co-operation by the Bolsheviki with Turkish leaders, such as Enver Pasha, who is threatening to keep the whole Orient affame. ISLAMIC HOLY WAR.

The present mission aims to unite the Islamic peoples in a holy war for the slaughter of Christians in order to serve Bolshevik purposes and to prevent splitting Turkey apart, but the Russian envoys in Berlin themselves admit confidentially they consider the Turkish alliance extremely valuable.

One man, sent from here to Moscow recently, was asked why Russia was so active in Turkish affairs. This is his answer to that and to later questions: League Failure may Force Third Term Race.

Fate of the Treaty is Keystone to the Situation.

TREATY IN THE WAY.

None of the Democratic aspirants will begin to get his political bearings until the fate of the treaty is decided, and the President indicates definitely whether his candidacy is open to consideration. If the treaty should fall of ratification there will be a good deal of pressure brought to bear upon Mr. Wilson by Democratic advocates of a League of Nations to lead the party, because in their opinion no other candidate could hope to win on the issue of opposition to reservations.

Friends of some of the present aspirants are of the opinion that Mr. Wilson would be seriously handicapped by the third-term tradition in running even on an issue-of his own making, but the President is a tradition smasher, and has always held the people should be at liberty to keep a President in office as long as they desire.

Announce the Opening of Our New Los Angeles' Store. Informal Opening for Inspection Only

FRIDAY, MARCH 12th

Afternoon 3 to 5:30

Evening 7:30 to 9

Music by De Nubila Bros.' Orchestra

Open for Business Saturday, 8:30 a. m.

In 1887 Mr. Samuel H. Kress started the S. H. Kress & Co. 5, 10 and 25-cent stores in Nanticoke, Pennsylvania. There was at that time nothing strikingly different in the store than an ordinary man would have when starting a business, excepting the energy, application and principles which he applied in the undertaking, which were absolute fairness and consideration for all. This has ever since characterized the entire Kress organization. This one small store has developed until today the Kress stores are established from the Atlantic to the Pacific Oceans in the most prominent cities of the South and West, operating approximately 150 stores. The growth and volume of the Kress business today make it one of America's greatest mercantile enterprises and a national institution, which has established a reputation for Kress quality, Kress service and Kress prices.

Every Kress store is located in a specially constructed building with the most up-to-date equipment conveniently arranged for comfortable shopping, which is in keeping with the fast-growing California ideas, which should make this store one of the most popular shopping centers in Los Angeles. A Kress store once established has never been discontinued. This conspicuous success can be traced primarily to:

Close personal inspection of all purchases.

The exhaustive study of requirements of the shopping public.

The extension of any service which embraces foreign and domestic countries, searching for the highest quality merchandise which can be retailed at popular prices.

The Los Angeles store when completed for business will be one of the finest and the largest 5, 10 and 25-cent stores in the United States, the popularity of which will have to be left to the judgment of the Los Angeles shopping public.

Watch for the opening sale announcements, also make it a habit to "WATCH KRESS WINDOWS" and arrange to meet your friends in the rest room provided for this purpose. The first week of the opening will be devoted to getting acquainted with the public and special sale merchandise will be offered in the various departments every day during the week.

Stetson"

To appreciate a Stetson is to wear one and know its lasting style its character and quality.

Stetson hats are made to satisfy. They give long wear and that is why the great majority of men stick to Stetsons season after season.

This store is the home of the Stetson and the new spring styles are ready now.

Helme emphasized statements that he had no dealings with the Newberry campaign committee, believed his candidacy was desired by Democrats, and had no knowledge that Newberry supporters had wanted him in the race.

In Line of Growth

Los Angeles is a wonderful field for investors in income property. It pays them double returns and does it with remarkable speed.

The development of the city is our constant study. We have a finger on its pulse all the time. We know minutely what is going on. We place investments where we know thoroughly what they will do for the purchasers. We do the purchasers very substantial favors by placing with them the properties we sell them. They could well afford to pay us for doing it but our service costs them nothing.

Our clients are the most substantial people there are. They look to us to place their money in income and investment property to their best possible advantage. If you will take the trouble to find out some of the properties we have sold and the men we have sold them to it will give you confidence that we can place your money where it will bring you the best returns.

We have today a piece of property on South Spring street that will pay the investor handsomely. He can improve it or hold it as it is for the present. If he improves it he will get splendid immediate returns and the growth and development about it will increase its value rapidly. If he does not improve it at once it will carry itself and increase in value. The property is approximately 69 by 155 feet. It is assessed at \$170,400. We are prepared to deliver it to a purchaser at once for \$137,600. That is \$800 a foot less than similar adjacent property has sold for.

Ask Mr. Andrews, in section six, to give you the full information on this

ding that the Food Administration owes the board about \$15,000,000,000, and the War Department about \$150,000,000,000.

On February 1, he said, the board was operating 1297 bottoms of \$,383,000 deadweight tons, including 1046 steel cargo ships, 276 wooden vessels, forty-eight tankers and sixteen refrigerator ships. A total of 158 companies, he said, held operating charters for vessels owned by the board. On the first day of February, '09 ships were listed as "under repair." 135 "laid up for winter," and 1179 "in actual operation."

WOULD CLOSE BUSINESS. WOULD CLOSE BUSINESS.

Not I cent will be asked of Congress by the Shipping Board to complete its programme. Chairman Payne said, since funds from operation and sale of ships will take care of estimated expenditures of \$207,000,000 for the next fiscal year. He reliterated that the "government should get out of the shipping business as soon as possible and stay out."

Government operation of the present fleet Mr. Payne did not consider very profitable, although the government had some cash from

the government had some cash from it.

"With the amount of the investment is taken into consideration," he said, "and the fact that ocean freight rates have been so high as to make conditions extraordinarily favorable for ship operation, we cannot expect that to be a permanent condition."

Individual Americans, he said, could operate ships successfully at a profit, in competition with foreign-owned vessels. Any charges that the Shipping Board had more accidents and difficulties in operating vessels than could otherwise be expected, he said, were disproved by the fact that the insurance rate on the government fleet was only 3½ per cent., while the general commercial rate was 4½, and that repairs were costing only around 67 cents per month per ton operated.

IST A P. DAY WIRE.

EL PASO, March 10.—Joseph Williams of El Paso, an employee of the American Smelting and Refining Company, captured and held for ransom by Francisco Villa when the bandit wrecked a train on the Mexican Central Railroad, Thursday last, has been freed, according to a telegram from Williams to his employers received today.

The message merely said Williams arrived in Torreon last night and would leave there tomorrow, arriving here March 13, and that he was in good health.

From the message it was believed no ransom had been paid. It was reported by fellow-travelers on the train that Williams was being held for \$50,000 ransom, but officials of the smelting company said no demand was made on them.

(EXCLUSIVE DISPATCE.)

NEW ORLEANS. March 10.—
Senor Ygnacio Bonillas, Ambassador from Mexico to the United States. spent today here on the way to Laredo, Tex., from which point he will go into Mexico, on his way to Mexico City. Bonillas would not deny to newspaper men that he might become a candidate for the Presidency of Mexico. He did not deny, either, that he has a large following in Mexico who would like to see him succeed Carranza.

"I cannot say anything regarding the purpose of my visit here or to Mexico City, excepting that I am on a leave of absence from my duties in Washington and on my way to Mexico City. I cannot say how long I will be away from Washington."

C. Serrano, his secretary and Bonillas had a two-hour conference with Consul-General Brito and the leading Mexicans here before leaving for Laredo tonight.

The ancient Turk was asked how about the Armenian massacres. He was not very clear. He said:
"I assure you those massacres are unexplainable, and I almost believe they were frightful machinations against us. Anyway, they were not committed by the Turkish people."

How to economize in cloth

OU'RE interested in that subject, we're L sure; because everyone likes the results of economy-the money saved. But you may not like the sacrifices that go with "economizing"

The nice thing about clothes economy is the fact that you dont have to sacrifice. Buy better clothes-that's all. Then you let the clothes do the economizing. Our allwool clothes last longer; you buy fewer of them; spend less money

Simplicity is the style idea

You'll see it in our new suits and overcoats: it takes real art to make clothes plain and at the same time distinctive and stylish. We've done it. Satisfaction or money back

WRONG TO CURTAID OUTPUT IS WORD OF GRIFFITH JONES TO TRADE BOARD.

Speaking before the Board of Trade at Fullerton last night, Griffith Jones, attorney, took sharp issue with those labor radicals, who cry against the high cost of living and yet would not have the working man give a fair day's labor in return for his wage. Mr. Jones said:

"If the radical unionists intend to force the issue to such an extent that it becomes unionism or Americanism, the people are going to stand for Americanism. I believe in the right of the working man to organize and have always done my part to assist them in their struggles. I am a believer in the co-perative plan of conducting business. It is said that there are hundreds of employees of the various steel corporations who not only draw a weekly wage, but also are stockholders. There is something radically wrong with an organization that prevents its members doing justice to themselves and to the community in which they live.

"A man for instance should be allowed to lay as many bricks per day as his ability permits, without being curtailed by any organization, whether union or otherwise." I appeal to the conservative patriotic Americans who are members of the various unions, to do away with radical agitators, and it is my belief that unless these agitators are replaced by conservative patriotic Americans who are members of the various unions, to do away with radical agitators, and it is my belief that unless these agitators are replaced by conservative patriotic Americans who are members of the various unions, to do away with radical agitators, and it is my belief that unless these agitators are replaced by conservative patriotic Americans who are members of the various unions, to do away with radical agitators, and it is my belief that unless these agitators are replaced by conservative patriotic Americans who are members of the various unions, to do away with radical agitators, and it is my belief that unless these agitators are replaced by conservative patriotic Americans who are members of the various steep agitators are replaced by conse

the following statement correcting Mr. Story:

"Since 1897, Mr. Story has been actively associated with every forward movement of the citrus industry: first as a director of the exchange, later as vice-president, and as its president since 1904. During that time, the exchange has evolved from a small struggling group of citrus fruit growers, banded together for a better distribution and marketing of their product—and in its pioueer days, fighting to preserve the industry against the losses that are inherent in unorganized buying and selling—to its present position of national leadership in the co-operative distributing and marketing of farm crops.

the facilities provided by the exchange.

"These are large accomplishments during the presidency of Mr. Story, and in themselves place upon his guidance the stamp of a wise and far-seeing administrator.

"The greatest contribution of Mr. Story to the California Fruit Growers' Exchange is not, however, in these material things, large as they are; but in his own soul and spirit which, for nearly a quarter of a century, he has given unselfishly to the industry that others might enjoy a larger blessing through the wisdom of working out their ploblems cooperatively. The spirit of service to each other has been made a vital living force among exchange members through the unselfish example of Mr. Story in his devotion to the industry's welfare."

—a thing of steel which does not smile. One simply drops a coin in a slot and checks his own wraps. This service will cost a nickel. Many hotels are planning to install the ohecker. The smiling girl and the active boy with the whisk broom will continue on the job, and the public can take its choice of giving them the customary dime or dropping half that sum in the maw of the automatic.

In any event, the hotels and cafes will get the guest coming and going. He must pay for the care of his wraps while the deft waiter is prying him loose from his coin in the dining-room.

The complaint charges that November 29, 1919. Mrs. Van Camp, in the presence of divers other persons, with malice and ill will towards Miss Cruzen, "wilfully wickedly, wrongfully and maliciously and with intent and design to injure, disgrace, and defame this plaintiff and to bring her into public discredit as a good and virtuous woman and to cause the public to hold said plaintiff in contempt and ridicule, spoke of and uttered the following fafte, sianderous, malicious and defamatory words:

of and uttered the following farse, sianderous, malicious and defamatory words:

"Frank Van Camp and Ruth Cruzen, why are you two here? Why are you been committing adultery with this low-down creature? Why have you been committing adultery with this woman? What you were you doing here last Monday about 3:39 o'clock? Why did you come here a week ago today? Why were you here two weeks ago today with this woman? Why did you buy silk stockings at Innes, Tuesday morning, and why have you been taking her roses nearly every morning? Why have you been taking her roses nearly every morning? Why have you been coming here day after day with her? Tell me why? Is there any reason for all this? And you low-down creature, what have you got to say?"

Going out with a would won the word of the defendant, and E. C. Thompson, notary public and shorthand first this woman? Why did you buy silk stockings at Innes, Tuesday morning. Mrs. Hughes made the following statement:

whom he came in daily contact."

However, as the judge stated, Mrs. Van Camp grieved when she heard of it and became hysterical.

"The defendant's relations with the stenographer from that time on are unfortunate," the judge declared. Miss Cruzen, the court found, was "a demure little girl with a sad face, not blessed with an over-abundance of good looks or health. TELLS OF SALE.

The explanation by Mrs. Hughes of the mystery of the five letters is contained in a deposition taken in the presence of a notary public and two attorneys.

Mrs. Lindsay says the letters in dispute, autographed by Charles Dickens, Lord Nelson, Landseer, Longfellow and Gladstone, and a silver of naner bearing King George's

Jongfellow and Gladstone, and a fiece of paper bearing King George's signature, were loaned by her to Mrs. Hughes and Mr. Crouch.

In the presence of George L. Greer, attorney for Mrs. Lindsay, Charles C. Montgomery, attorney for the defendant, and E. C. Thompson, notary public and shorthand reporter, in Room 1906, Hibernian Building, Mrs. Hughes made the following statement:

"I met Mrs. Lindsay only once, when Mr. Crouch and I vere house. Mr. Crouch and I vere planning to give an exhibition and we visited her home to secure the letters. Concerning the painting Picture on Oak, I know nothing of it. I did not take it in my machine from Mrs. Lindsay's home with the other curios. Mr. Crouch and I did have the letters, which had been framed, and King George's signature on exhibition. These were the letters of Charles Dickens, Landseer, Langfellow, Lord Nelson and Gladstone."

"Do you know what became of them?" Mrs. Hughes was asked.

Millie A. Heffner. She is my sister and lives in Fullerton. I made a legal bill of sale for all the stuff and everything was delivered to Miss Heffner," she replied.

"And you delivered to her these autographed letters?" Mrs. Hughes was asked.

"REGARDLESS."

"Everything that belonged to Mr.

Commenting on the decision, udge Crail stated that the public hould not overlook the distinction between a divorce and a broken ome.

"A divorce is sometimes a bless."
"A divorce is sometimes a bless. ag; the break-up of a home is ever a blessing." he said.

WAS GOOD WIFE.

Declaring that Mrs. Val. Camp had een a good wife, Judge Crail out that Mr. Van Camp had wife to the court of their visit to Mrs. Lindsay, Mrs. of the court of

been a good wife, Judge Crail pointed out that Mr. Van Camp had himself testified that when his income was almost \$100,000 a year, during the early years of his married life, she had done all the housework.

"And yet," he added, "the defendant became very careless with regard to this great happiness."

Continuing, the judge stated that he took his stenographer, Miss Ruth Cruzen, "on an auto ride" for a couple of hours for the purpose of 'killing time," adding that, "it was merely an effort on his part, perhaps, to be pleasant to one with whom he came in daily contact."

However, as the judge stated, Mrs. thoughes to recover art articles for exhibition purposes and for sale to wealthy tourists. to Join "The Little Cottage" at the Orpheum. She says that the skirts of abbreviated length are quite generally worn in New, York and she was much surprised when her appearance in the new style attracted so much attention yesterday.

"Why, this isn't short," she declared, when asked to stop and posefor a picture. "See, it comes quite to my knees. In New York they are even shorter than this; some of them much shorter, especially for, ball gowns. On the streets, too, they wear them briefer, though not quite so out-off as they do indoors.

Trial of the suit of Miss Eunice Barker against Charles W. Munro and Mrs. Grace Munro, which started in Judge Wood's court yesterday, for the recovery of property val-ued at \$26,600, revived the sensational suit which Mrs. Munro brought against Miss Barker for alienating the affections of Mr. Munro. Miss Barker won the lost-love suit, but a new trial was granted and the case will be heard again on March 25 before Judge Valen-

tine.

Mr. Munro was not in court when the lost-love wit was tried, but he was in court vesterday. A feature of that case was the production by Mrs. Munro of more than 100 love letters Mr. Munro is said to have received from Miss Barker.

Miss Barker on the stand vesterday told the story of how she met and was admired by Mr. Munro; how he bought and gave her a \$17, 600 bungalow in Glendale styled the "love nest," and of the gift of a Cadillac coupe and furniture werth \$6000.

Cadillac coupe and furniture worth \$6000.

She declared that after their break-up and under threats Mr. Munro forced her to deed him back the bungalow and give him a bill of sale for the furniture and coupe. Mr. Munro is fighting her suit to recover the property. He is represented by former Judge Clarke and Col. Richardson. Nathan Newpis counsel for Mrs. Munro, also in court. Arther Veitch represents Miss Barker.

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric

Undigested food delayed in the tomach decays, or rather, ferments the same as food left in the open air, anys a noted authority. He also tells us that Indigestion is caused by Hyper-acidity meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything caten sours in the stomach, much like garbage sours in a can, forming acrid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eractate sour food or have heartburn, flatulence, water brash or nausea.

water brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breaklast and drink while it is effervescing and furthermore, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.—[Advertisement.

HOW TO ACQUIRE HAIR BEAUTY

You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist's a package of canhrox and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. Your shampoo is now randy. Just pour a little at a time on the scalp and hair until both are entirely covered by the daintily perfemed preparation that thoroughly dissolves and removes every bit of dandriff, excess oil and dirt. After rinsing the hair dries quickly with a fluffiness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasura—[Advertisement.

That is just what is taking place in California now The most conspicuously representative group of citizens that has ever taken part in a primary campaign is backing the movement to make Hoover President. The very reluctance which Mr. Hoover shows to parade about the country soliciting personal support for public office has endeared him to their hearts. They have seen the manto their hearts. ARTICLE TEN.
One little sentence of two lines in a document comprising more than 90,000 words may defeat American ratification of the Versallles peace treaty. A willful Sen-ate says that hurdle is too high and refuses to try the leap; a still more willful President declines to consent to lowering the bar. Tragic was the world war that slew fifteen million fighting men; abysmal may prove that fragmentary sentence, the wording of which is held by the President to be of more importance than "breaking the heart of the world."

The members of the League under-take to respect and preserve as against external aggression the territorial in-tegrity and existing political independ-ence of all members of the League.

That is the hurdle at which a majority of the members of the Senate are balking, backed perhaps by a majority of the citi-zens of the United States. The British and French governments have agreed to any nodification of its wording to affect the consider essential to preserve the consti-tutional rights of Congress to decide when this country shall, or shall not, take part

in a foreign war.

When the President returned from the Peace Conference he admonished the Sen-ate that a failure to ratify the covenant of the League of Nations "would break the heart of the world." Confronted by the proposed Senate reservations to that frag-ment of Article X, he says in substance:

Article X is the President's own child. It was originally written by him on White House stationery, while the George Washington, nee Kaiser Wilhelm II, was making its first Presidential trip to Europe. It is the only article of the entire covenant which was adopted by the Peace Conter-ence in the exact form in which the Presi-dent had written it. The President per-mitted his production to be edited by the foreign commissioners assembled at the peace table; but he declines to be edited by what he terms a "little group of willful men" in the Senate. If Article X is to be modified by a reservation the last claim of the President to authorship in promulgat ing the peace treaty fades; and the President seems bent on using his rights as Chief Executive to protect his rights as

There are known to be a number of Den ocratic Senators, however, who are not such sticklers for word forms as the President; and the President's recent letter to Senator Hitchcock was written for the pur-pose of holding them in line. Senator Lodge and other reservation leaders con-sented to a modification of the November reservation on this article in the forlorn hope that it might be acceptable to enough Democrats to secure the sixty-four votes necessary for ratification. The reservation, as they proposed it, is as follows:

The United States assumes no obligations to employ its military or naval forces, its resources, or any form of economic discrimination to preserve the territorial integrity or political independence of any other country, or to interfere in controversies between nations, whether members of the League or not, under the provisions of Article X, nor to employ the military or naval forces of the United States under any article of the treaty for any purpose article of the treaty for any purpose unless in any particular case the Con-cress, in the exercise of full liberty of action, shall by act or joint resolution

so declare. The President has asserted that this reervation is, in effect, an amendment that "cuts the heart out of the League covenant." In discussing the covenant the President is always strong on hearts. But Earl Grey pointed out the very pertinent difference between an amendment and a reservation. Such a modification, if offered reservation. Such a modification, if orered as an amendment, should be general in scope and should apply to all countries; as a reservation it would relate to the United States only. Adopting the reservation would not deprive a future Congress of the right to declare war against any nation which should make a new attack upon the peace of the world. The President has said that the obligation imposed in Article X is only a moral one; but he is as strong

a stickler for morals as he is for hearts.
On being informed yesterday that the
President would oppose this reservation as inreservedly as any of the others Watson, Republican, informed the Senate that it would be withdrawn. But Senator ed, saying that they have not yet given up opes of securing enough Democratic vote to insure its acceptance.

Opposed to the position taken by the President are Mr. Root, Mr. Taft, Mr. Bryan, Mr. Hughes, Mr. Eliot and numer ous other advocates of a League of Nation to protect the peace of the world. Three fourths of the Democratic papers of the country have advocated the acceptance of a reservation on Article X which would assure a two-thirds vote in the Senate for the treaty. One of the strongest support-ers of the Wilson policies in the South, the Louisville Courier-Journal, made the fol-

lowing appeal only last week: Democrats and Republicans, spare the country another year of suspense and helplessness! Give us the treaty at once; let next March be the anniversary of its ratification, not a time merely for resuming the controversy! If we must take the reservations of the opposition, let's take them — BUT LET'S HAVE THE TREATY NOW!

In another editorial the Courier-Journa asserts that it would prefer the treaty as originally written, without reservations of any kind, but that it is in favor "of the immediate ratification of the treaty upon mediate ratheation of the treaty upon whatever terms may be possible, even though it become necessary to accept the odious welching reservations evolved or chaperoned by the Republican leader."

This sentiment was generally approved by the Democratic press. But the Presi dent will have none of it. He is fleeing, like Eliza across the ice, with his favorite child to the deepest recesses of the White

If broken hearts were to be the issue the President would do well to take note of the effect of his unexpected obstinacy upon millions of his once ardent supporters throughout the country who were ready to canonize him because he had given to the world a League of Nations.

NINTH CONGRESS DISTRICT.
Republicans of the Ninth Congress
District have again reached the point of conference and discussion for selecting one of their number capable enough and popular enough to represent the district in the national House of Representatives. The Ninth District has a registration that is in its limits live some of the ablest men of California. The average intelligence of the electorate is many points above that of the average. Yet it has not been represented in Congress for a number of years

The Ninth is a great citrus fruit region. It is one that needs adequate tariff protection against oranges and lemons of the erranean countries. Yet it has acquired the habit of sending to Washington a Representative who caucuses with the free-trading Democrats. Why several thousand intelligent men and women of the dis-trict regularly register as Republicans and Congress is one of the mysteries of politics for which no adequate explanation has yet been vouchsafed.

been vouchsafed.

Of course, our outrageous State primary laws are largely to blame. They permit a Democrat to fun in a Republican primary without revealing his political identity. They have aided Congressman Randall, who registers alternately as Prohibitionist, Progressive and Democrat, to secure enough Republican votes to control elections. Republican votes to capture elections. To be sure, Randall is an adroit campaigner. He voted against the President's war program from the President urging his re-election. He caucused with the Democratic majority and took his portion of the paves and fishes, and yet got enough Republican votes to succeed himself. The po-litical strength of a man able to do that

Randall has always succeeded in running against a divided opposition. The Repul licans in the district are strangely averse to uniting on a single capable and availa ble candidate and putting him over. There is generally a Republican candidate for the primary nomination from almost every sec tion of the district. The result is a manycornered primary fight, waged bitterly, and the candidate who wins is confronted by so many enmities that he goes into the general election handicapped. That is the way the elections have been lost in the past; and we wender whether the Republicans of the district-have learned aught

by past defeats. Is it possible for Long Beach, Monrovia, Pasadena, Pomona and San Fernando to combine this year on a single representative Republican, give him a rousing vote in the primaries and sufficient united support afterwards to insure his election? The Times hopes they can do so; for the Republican party, both in the State and the nation, has suffered by the defeats of the Republican candidates in the Ninth District. A national as well as a local impor tance attaches to the election of Republicans to Congress. When Democrats are elected from citrus fruit districts it is generally accepted as meaning that the citrus fruit interests are not interested in a protective tariff.

Is there not some Republican in the district who has the skill of Will Hays to harmonize conflicting Republican interests to the extent that a united front can be op-posed to the Randall opposition? In that way alone can the district be put back in the Republican column, where its overwhelmingly Republican registration shows that ft belongs.

Sir Oliver Lodge says he does not believe in the alleged manifestations of the outja board. FUSS AND FEATHERS.

The question is being threshed over again

Practically all the objection to the rooster is based upon his strenuous voice and his ungodly hours. The placid and benign lay of the hen is one thing and the noisy and defiant outburst of the feathered male is quite another. The social cat and the quarrelsome dog are much disliked, but of all the voices of the night the ear-splitting sameness of chanticleer is the most thoroughly despised. It breaks loose without any warrant or justification. It is careless of time or occasion. The rooster was popularly supposed to save his crowing for the dawn, but this conception is wrong. He splits it wide open at all hours of the night. He is perfectly indifferent to time. Whenever he is awake he is starting something He wrecks the soothing silence of midnight with his clarion call and at any period be tween curfew and the 6 o'clock whistle his

vocal prowess is made manifest.

At different times scientists have prom ised the voiceless rooster, but all of their is no such thing as a deaf and dumb breed of poultry. Inventors have labored over devices to suppress or curtail the vocal ef-forts of the rooster, but to no purpose. The bird simply will not be muszled. If an electric light is kept in front of his eyes all night he will crow very little, but this is an expensive and unsatisfactory plan. It would be better to dispense with him entirely. Like the average husband, he is more ornamental than useful. It is only about one or two months of the year that the hen really cares to have him around Under modern evolution he seems to have lost a great deal of his ancient gallantry He has grown selfish and grasping. Instead of calling his lady friends when he has found some choice morsel from the banque board he is not only apt to swallow it in y sflence, but he will sneak up and rob his queen should she chance to scratch out some obese and succulent worm.

The rooster is no stimulant to egg pro uction-in fact, many poultry experts de clare that their flocks lay better and m regularly without the presence of the roos ter. He is the world's greatest four-flushe and that is about the best that can be said

In an Unfortunate Class. oregon Democrats are planning to get the name of William G. McAdoo on the ballot somehow or other. We might remind 'em that this is a poor year for Crown Princes.—[Portland Oregoniam FOOLISH TAX SYSTEM.

From the "Kansas City Star." Aren't we the easy money though! We are. We're going to pay an increased State income tax this year, not because the increase was justifi-able or because the State's other sources of taxation failed to yield,

sources of taxation failed to yield, but because we're such easy picking the Legislature didn't have the strength to resist the temptation.

The income tax made it so easy to operate on us, because the principle of that tax had been accepted everywhere as sound and equitable. The politician discovered we had that foolish feeling about it and that's why they hit us with it. Only they used it like an ax. We predict a considerable failing off in the popularity of the income tax unless the government attitude toward it changes. It's the old story of abusgovernment attitude toward it changes. It's the old story of abusing a geod thing. Hooray, said the politicians, here's a tax the people like. So long as they think they are being taxed on a just principle they won't feel themselves bleed. And laughing merrily they raised the percentage from one-half of 1 per cent. to 1½ per cent. and lowered the exemption from \$4000 to \$2000. Still, it's an income tax, so, of course, everybody will pay it with the delight mankind takes in serving justice.

the delight mankind takes in serving justice.

Only it isn't justice. It's a political shakedown and we pay it on that distinct understanding. The Missouri Legislature simply slipped up behind us and tapped us. It could have done it under a dozen other forms of taxation if it had been proved it this way because

forms of taxation if it had been braver. It did it this way because it thought the name of income tax had us anesthetized so we wouldn't know what was being done to us. That's the art of legislation as it has now been developed.

Congress did the same shing when it fixed up the graduated Federal income tax. Out loud the politicians said the graduated income tax was the fairest and most scientific tax in the world because it fell on everybody in proportion to his

everybody in proportion to his means. On the side they whispered that actually the rich would pay it and the rest of us would get off with

and the rest of us would get off with just a little pricking to make it look like business.

We fell for that side whisper strong. We rubbed our hands and said, here's where the rich get it where Susie wears her glass beads. We said, ain't it great to be poor? When the haughty profiteef almost ran over us in his diamond-studded car we said, ha! ha! wait till you get home, old boy, and find what the postman left from Uncle Sam.

That's the way we thought it was going to be, till the rich began making out their returns. Then we found two things. We found in the first place there were all sorts of ways for gentlemen of large means to beat the income tax, and in the second place we found that they added the tax to the cost of living and passed it on with a vengeance.

added the tax to the cost of living and passed it on with a vengeance. The rest of us, living on salarles and wages, were the ones who found no way to avoid digging up.

Then it was the rich who rubbed their hands and said, here's where the poor get it where Hortense wears her rubies. Ain't it great to be rich.

wears her rubies. Ain't it great to be rich?

That's the modus operandi of the present form of the income tax, badly stated. The manufacturer, the wholesaler, the jobber and the retailer slap on the surtax to the price. For every cent of surtax they slap on the amount of the tax and then some, all down the line. Who pays' We guess we do. But who makes the profit? Oh, nobody. There isn't any. Manufacturing and sales costs are too great. They absorb it all. It would be incredible if the income tax returns didn't show it, but there are the figures made by the best legal and accounting talent and they show business was done at a loss. Business is thinking of shutting up on account of it.

RAIN DAMPENS ANGELS' SPIRITS.

Mrs. Gardner simply won't stand for burros.
Radiant Red Killefer wasn't here today to conduct the Angels over the hills. Rather than make the trip without their brilliant manager and guide, the Angels cut out the hike. Mr. Killefer hadn't returned from Los Angeles at the hour set, aside for hiking. Once a week radiant Red goes to Los Angeles and walks along radiant way so as to get the batteries in his head recharged. He then comes back effulgent. Red says this beats getting lit up in the old way. There was a time when Red had to get his wicks trimmed once a week, but that was before the Edison company began milking electricity out of the mountains.

END OF FLU.

END OF FLU.

The storm is believed to have spelled the finish of the flu epidemic. The few semaining germs were washed into watery graves down in the lake. This epidemic was almost a flat failure. No germ has even a fighting chance against this water. Things have gone on the hog generally here in the past twenty-four hours. The newspapers didn't arrive at the usual time; the rain leaked through a crack in Mr. Klarer's drug store, and Mrs. McSwain's cocacola tank blew up through too much pressure.

OLD POOL TABLE. Some seribe down here wrote up an antiquated billiard table which was worn down to the second stratum of slate, had balls with the numbers worn off and cues like a shepherd's crook. This tended to get the goat of Mr. and Mrs. Charles Hohman, who conduct a first-class pool hall here, where the ball players hang out. They want the world to know that this table doesn't belong to them. They have billiard balls with such plain figures that you can put the pay ball in the corner pocket from a distance of fifteen kilometers.

As a result of recent researches made here, it has been ascertained that there are seventy-three widows in Elsinore. Just why there are so many widows here is not explained, but it would seem to indicate that husbands are treated so rough that they pass away in the prime of life.

kind enough to intimate that the average widow mourns only for a day, and then learns to shimmy. We doubt this, but it is true there is not much mourning here.

Every bright, sunny day, one can hear the laughter of merry widows rippling across the lake. But it is not always thus at night. Last night while walking on the lake shore I thought I heard a panther up in the hills. Later I found it was merely a widow crying aloud in the wilderness.

ELSINORE BUBBLES.

Timmy McAuley's absence from the club is something that later may prove a handicap to the infield. Without the regular shortstop on the job it is almost useless to attempt to develop anything approximating teamwork.

No player is making a greater effort to condition himself than the veteran, Sam Crawford. Sam, in fact, shows more industry than some of the rookies, and they might profitably read a lesson out of his life and daily habits. Not only does the big slugger, the man who formerly drove Ty Cobb in with so many runs, do his two hitches a day on the diamond, but when it comes to the hill hikes he does not look for short cuts.

One of the bushers last night slipped and almost sprained his ankie in his haste to enter the dining-room. Bert Nichoff suggests that the turn in the hall here be banked so as to prevent slipping when dinner is announced.

Manager Killeter made a hurry-up trip to Los Angeles last night. He was accompanied by Mrs. Killeter and their two beautiful auburnhaired children, who wanted to go home before it rained. After they had departed, President Powers called up on the long-distance telephone, only to be informed that his auburn-haired manager was on the way to Los Angeles.

RSDAY MORNING.

3274 passengers in cars of 31 different makes drove up before this Opera House entrance one evening last month. Many of them are traveling in second-class comfort, not realizing that they pay first-class prices for it

Does it Really Cost any more to Travel First Class

700 will often hear people say, with an air of resigwould rather ride in a Packard, if they could only afford

Putting the Packard owner in a class apart, with special comforts and privileges - assuming that he pays more for his motoring than they do.

A GREAT many people would be less resigned to their own inconveniences of travel, if they knew how little the Packard owner pays for the comfort they speak of.

Packard Transportation never costs more than secondclass transportation-and often less.

The gasoline mileage of the Packard is from 10 to 14, according to road conditions. The oil mileage, 1,000 to the gallon. Tires, properly cared for, 12,000 to 16,000 miles.

The Packard exclusive heattreating process adds greatly to the strength of the steel, reducing repairs and depreciation.

The longer life and greater used value of the Packard more

than takes care of the difference in initial investment.

FOR twenty years the Pack-ard Company has been studying motor cars from the standpoint of Transportation Experts. Time after time it has proved that trying to save on the initial investment costs a man more in the long run than buying a Packard.

Transportation facts are not a matter of compromise, but absolute—as the Packard Transportation Experts can show any man who really wants the facts.

ANNOUNCE

a plan of joint operation to insure the most efficient use of their combined resources

HARE'S MOTORS

has been organized to direct and coordinate the production and distribution of these affiliated Companies

History

In October 1919 Mercer Motors Company acquired the property of the Mercer Automobile Company.

In December 1919 The Locomobile Company was organized to take over the property of The Locomobile Company of America; Mercer Motors Company receiving a substantial interest in The Locomobile Company.

In January 1920 Mercer Motors Company absorbed the Simplex Automobile Company, manufacturers of the Simplex and Crane-Simplex cars.

Today Hare's Motors assumes the directing power of all these properties. Its function will be to see that in effecting the big increase of output already under way, and the rapid diversification of product for which these factories are being equipped, there shall be no waste of plant space or of effort in any respect.

Organization

Hare's Motors will be officered by these well known men:

President-Emlen S. Hare, formerly Vice-President, Packard Motor Car

Vice - President, in charge of Engineering Development-H. D. Church, formerly Chief Engineer Motor Truck Division, Packard Motor Car Company.

Vice-President, in charge of Production Ormond E. Hunt, formerly Chief Engineer, Motor Carriage Division, Packard Motor Car Company.

Vice-President, in charge of Distribution & Maintenance - Henry Lansdale, formerly General Carriage Sales Manager, Packard Motor Car Company.

Vice-President and Consulting Engineer - A. L. Riker, formerly Vice-President and Chief Engineer Locomobile Company

Secretary & Treasurer - F. R. Hickman, formerly Treasurer, Locomobile Company ot America.

Through the medium of Hare's Motors, Locomobile, Mercer and Simplex are welded together for purposes of operation and tremendously strengthened by each other's resources plus the directing brain power of the Hare's Motors staff. It is safe to say that the knowledge and experience of automobile engineering, production, and distribution in the quality field which is brought together by the combination of these executive groups is not equalled or even approached in any other organization throughout the length and breadth of the industry.

Purpose

To provide a complete assortment of highest grade passenger and freight transportation units.

In furtherance of this object, to increase materially and immediately the output of all plants under its control.

Standards

Hare's Motors is managed by men who know but one standard of quality and that the highest. The manufacturing practice of its shops will be the soundest known to American workmanship.

Ideals

In these momentous times a statement of ideals will not be out of place. The contemporary clamor for rights is submerging the emphasis on duties. An unprecedented zest for gain tends to obscure the fact that permanent gain comes only by way of obligation thoroughly fulfilled.

The Hare's Motors management intend that their Company shall succeed most by serving most.

They mean that it shall deserve the confidence, possess the admiration and receive the enthusiastic patronage of the American people by standing for all that is best in American business enterprise.

The new orporation is to be called Recieral. The president is R. C. Copper, formerly connected with the Interstate Film Corporation. The company will not only produce but will distribute its own and products of other companies through exchanges to be established throughout the country. Recleraft will have some eight or ten companies at work, almost at once, and will expand the old Bulleye Studio on Santa Monica boulevard by the erection of large buildings and the acquisition of additional land in the vicinity. The organization has absorbed Bulleye Comedy Company as well as the Interstate Film Corporation, which has been a distributing agency.

this is probably the first time the same idea has been carried out with the organ alone.

The selection will be the old-time war song, "Break the News to Mother," which will constitute the prologue for "Dangerous Days," the Mary Roberts Rinehart story. With the accompaniment of C. Sharpe Minor, the number will be sung and acted out on the stage. At the same time there will be an impressionistic screening of battlefield scenes in vignette style on a drop in the back ground.

Mr. Minor is also to be represented on the programme by the presentation of his first tabloid screen opera depicting the "William Tell" story. This will be shown on the screen, while while the orchestra plays the favored overture. Mr. Minor is only appearing in the evening at the theater, as he is engaged during the day in the making of film productions.

But Miss Mason got lonesome for her husband last Sunday and skipped back to Los Angeles for dinner, make-up and all, and at that managed to get back on the set at 8:30.

Sennett is Busy.

Energy is abroad at the Mack Sennett studies these days with an unusual number of two-reel comedies under way and the making of another five-reel super-production to match in importance and quality "Down on the Farm," proceeding as rapidly as is consistent, "Gee Whiz" has been finished and will be released in the near future: "The Gingham Girl" has also passed along to Faramount for distribution on a release date set for early in April. Two others two-reel comedies are being filmed, in one of which Charlie Murray will be the star, and these, with the five-reel creation of pretentious proportions and appeal, are keeping Mr. Murray, Louise Fazenda, Marle Prevost, Harriet Hammond, Phyllis Haver.

Jack Dempsey, with his company of bow-legged, bronco-brakin', hip-shootin', squin-eyed buckaroos, has departed for a wild corner of the Tehachepi Mountains, where he will make a few lively exteriors for the eleventh episode of his serial, "Dare-Devil Durant."

ROTHWELL TO LEAD GOTHAM ORCHESTRA.

The prestige which Walter Henry Rothwell has acquired in the musi-cal world was indicated yesterday

by the invitation he received from
the East to conduct the summer
concerts of the new Symphony Orchestra in New York. This is the
same organization which Arthur
Bodansky has been leading with
such splendid success during the
first year of its formation. The
iligure offered the conductor of the
local Philharmonic Orchestra is said
to be very handsome.

Rothwell will conduct daily symphony concerts with the organization of 100 musicians, the personnel remaining exactly the same as
for the winter concerts, it is stated. The Philharmonic director will
leave here early in June and remain in New York until September
1. His engagement with the orchestra commences June 15.

"It means a busy summer for
me," commented Mr. 'Rothwell,
"for, in addition to this conductting, of course. I shall be seeking
musicians for the Philharmonic and
searching for novefites to add to
our already extensive library. Mrs.
Rothwell will accompany me East,
remaining for a month and then r
turning to our home in Los Angeles.

What makes this outflow of gold of unusual importance is the great superstructure of credit raised upsalers deny that potatoes will go up to 9 cents per pound wholesale. Before prices could reach this level, dealers assert, demand would be reduced to a point where prices would be prevented from making any further advances. It is admitted, however, that voluntary consumption on the part of the public, not only in homes but in the public eating places, will help to a great exon it. Credit under the Federal creserve system has not been strained to its legal maximum; but strained to its legal maximum; but for every dollar of gold money in the country there now exists from \$8 to \$10 in bank credit. If we take the lower of these figures, it means that to maintain even as great a ratio of gold to credits as we now have we must wipe out \$8 in credit for every dollar in gold that leaves the country. This means that, if as much gold were so leave the country this year as sattle the country this year. places, will help to a great extent in keeping prices down.

Yesterday potatoes were retailed for around 8 cents per pound, an advance averaging 2 cents per pound. Further advances may be prevented by reduction of consumption, as urged by the Federal Fair Price Committee, the Retail Grocers' Association, and other organizations.

CAPITALIZATION

Seven Per Cent Cumulative Sinking Fund Preferred Stock (Par Value \$100) \$4,000,000 share, interchangeable into each other at the option of the holder.

For information regarding the Seven Per Cent Cumulative Sinking Fund Preferred Stock of Penick & Ford, Ltd., Incorporated, we refer to a letter from Mr. W. S. Penick, President of the Company, copies of which may be had on request, and which states that:

Penick & Ford, Ltd., established in 1898, are the largest canners and dealers in edible molasses and cane syrups in the United States, their principal brand, "Brer Rabbit," being favorably known everywhere. Douglas Company, established in 1903, is one of the most important factors in the starch business in the United States, "Douglas" starches and corn oils enjoying a nation-wide distribution. The new Company, Penick & Ford., Ltd., Incorporated, has been formed to acquire the business of both these companies, the consolidation resulting in greater manufacturing and sales efficiency with little or no added expense.

All the proceeds from the sale of the stock now being issued will remain in the business and will be used for working capital and for the plant additions and extensions. The owners and managers of Penick & Ford, Ltd., withdraw no cash and receive only Common Stock for their interests.

Management The men who developed this business will continue in its active management and control through ownership of a majority of the Common Stock.

According to audits the net tangible assets of the Company, exclusive of good will, trade names, etc., after giving effect to this financing are \$9,585,953.56, or equal to \$239 per share on the outstanding Preferred Stock of the Company. Net current assets are \$4,901,392.25, which amount is sufficient for working capital and the rebuilding of the Douglas plant.

Average combined net earnings of the consolidated companies, before Federal taxes, for the calendar and fiscal years 1917, 1918, 1919, were \$2,116,831.74, or equal to more than 7 times the maximum annual dividead requirements on the Preferred Stock.

Average combined net earnings of the consolidated companies, after Federal taxes, for the same period were \$1,526,831, or practically 5½ times the maximum annual dividend requirements on the Preferred Stock.

The charter provides that, beginning with 1921 and annually thereafter, the Company shall set aside ten per cent of its net earnings, after all expenses, taxes and Preferred Stock dividends, to be used as a Sinking Fund for the retirement of the Preferred Stock, the sum so set aside to be not less than \$120,000 per annum if earned.

Safeguards The Company has no mortgage or bonded debt and the charter provides that it may not mortgage any of its real estate (purchase money mortgages excepted) nor increase the Preferred Stock without the consent of three-fourths of the Preferred shares outstanding.

No dividend shall be paid on the Common Stock in any year until after the dividends on the Pre-ferred Stock for that year have been paid or set aside and the Sinking Fund has been paid or set

Net current assets must be maintained in excess of 100 per cent of the par value of the then outstanding Preferred Stock before dividends in excess of \$400,000 per annum can be paid on the Common Stock.

BANK MERGER.

The merger of the Home and Hibernian Savings banks, which has Hibernian took over the California Savings and Commercial Bank last year will become an established fact about April 15, according to stories which were current yesterday in the financial district.

The name of the greater institu-

tion has not been announced, and many of the physical aspects of the a meeting to be held early in April

in the scope of the institution's influence.

The Hibernian Savings Bank is located in the Hibernian Building at the southeast corner of Fourth and Spring streets and the Home is in the Investment Building at Eighth and Broadway. The Hibernian is capitalized at \$500,000 and the Home at \$750,000.

The Hibernian showed a deposit increase of 127 per cent. for 1919. a part of which may be attributed to taking over the deposits of the California Savings bank. The Home's deposits increased for the year 53 per cent. The former had on January 1 deposits amounting to \$12,869,486 and the latter \$13,829.

355, both of which have probably been materially increased since that date. The stock of each bank has an approximate market value of \$200, pays 10 per cent. and has an investment return of 5 per cent.

The consolidation will give Los Angeles another savings institution of great strength with deposits well toward \$30,000,000. Andrew M Chaffey is president of the Home and George Chaffey is at the head of the Hibernian.

trowhead Continues Open To the Public

Until Middle of April

Trowhead Springs is now in its glory. March and April here are the most delightful months of the whole year. The Government selected Arrowhead from all Spas in the States as the most meritorious and desirable for the rehabilitation of our war-battered soldiers and sailors. This will be your last opportunity to use the and steam caves before the Government takes them over. Remember, Arrowhead Springs is the greatest Spa in the world.

Your eyes need protection from the sun's glare and brilliancy. The famous Sir William Crookes lenses neutralize blinding rays of natural and artificial light, also give protection from the everchanging lights and shadows of motion pictures. Ground to your prescription, or can make them from your lenses. Do not change natural colors. Are inconspicuous and far more attractive than ordinary color lenses. Satisfaction guaranteed—more than 32 years of scientific grinding and fitting—your best assurance.

doubled.

At the present time the offices are swamped with work, and an appeal is being sent out for volunteer stemographers and speakers who are willing to devote a part or all of their time to assisting in the Hoover campaign. With the very limited funds and facilities available to the local club, it will be necessary to rely to a great extent on volunteer aid until such time, at least, as the organization is perfected and the campaign is supported by more adequate financial assistance.

DEMAND FOR DATA. Letters are pouring in from all arts of the United States indorsing Letters are pouring in from all parts of the United States indorsing Hoover as a Presidential candidate. These letters are from editors, authors. United States Senators. State Governors, Congressmen, and high-ranking army officers. In addition, hundreds of letters are being received from all parts of the country asking for information and data about Hoover. With the Ilmited clerical force now at the disposal of the club, it is impossible to answer all of these inquiries, and at the present time, the data is being sent only to the "bell-wethers" or leaders of newly-organized Hoover clubs in the various cities, further distribution to be effected by them. It is planned, however, when the local organization is enlarged and perfected to prepare all of this data here, and to send it out to Hoover clubs in all parts of the country. Among the letters is one from Wallace Irwin, well-known author, who

Wallace Irwin, well-known author, who says:

"Herbert Hoover bulks larger than any other man now mentioned for the Presidency, and in so far as I am-concerned he has been my candidate from the first. He is the only one of our public men who has come out of the war with a 100 per cent, record. We know his genius for undertaking enormous tasks and completing them without any fuss and parade. I dare say there is no greater executive mind in the world today.

COUNTRY NEEDS HIM.

"I cannot think of any other man to whom we can look with confidence to lead us out of the jumble of selfishness, theory and ossified politics which threatens the country. The hopeless standpatters, on the one hand, are struggling to pull us back into old Russia, while, on the other, irresponsible radicals are shoving us into new Russia and all its unsurveyed wildernesses. While the tiny, keen little men of the Senate apilt hairs on party lines the profiteers, the Sinn Feiners, the Bolsheviks and the Junkers are having things pretty much their own way.

"Herbert Hoover has never failed in any job he has undertaken. In feeding the world he shouldered the most magnificent practical job ever given to one man, and against his administration there has never been brought one valid charge of dishonesty or inefficiency. BANKRUPTCY IS PLEA OF REALTY OPERATOR.

TUBBS HAS RUN GAUNTLET OF BOTH CIVIL AND CRIMINAL COURTS.

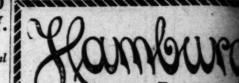

Ira H. Stubbs, a real estate operator, who, in 1916, was sentenced by Ira H. Stubbs, a real estate operator, who, in 1916, was sentenced by U. S. District Judge Trippet to a year and a day at McNeil's Island and to pay a fine of \$5000 on each of two counts following his conviction of using mails to defraud, filed a petition in bankruptcy in the United States District Court yesterday, Stubbs gave his debts gs 32,858,35 and his assets, all exempt under the law, as \$335.

Stubbs's financial operations have been the subject of several suits in the Superior Court. He was sentenced to Mc'Neil's Island for swindling Mrs. Mary Abercrombie, a milliner, out of a lot at Culver City valued at \$2000. On March 7, 1918, the U. S. Circuit Court of Appeal reversed the judgment of conviction, and last July, Stubbs was unmercifully scored in a judgment written by Judge W. H. Thomas, District Court of Appeal. The case came up on appeal from the judgment secured by Stubbs for \$50 against Mary E. Abercrombie and Justico Harlan G. Palmer in a suit brought by Stubbs for alleged false imprisonment.

BRIDE GONE, HUSBAND IMPLORES POLICE AID

Police yesterday were asked earch for Mrs. Ora A. Bremer, 34 ears of age, of 911 South Flower years of age, of 911 South Flower street, who, according to her husband. Ora Bremer, disappeared from home on March 6. The woman took about \$900 in cash with her and is suffering from mental derangement, the husband says.

The police say Mr. Bremer married the missing woman about two months ago and that several days ago she sold a piece of joint property for \$900.
